

My Heart

Örlygur Smári / Hera Björk & Peter Fenner

I have spoken all the languages of love
Blown kisses at the heavens above
I need your love like the roses need the rain
My heart needs warmth and protection
From the constant ache and pain

Warm kisses in the cool of autumn shade
I remember how the heartaches were made
I need your love like a candle needs a flame
My heart wants more than affection
So I'm calling out your name

**My heart needs loving arms around
You and me, night and day close together
Now I know we can't choose
How whose heart beats for whose
But I just can't hold out forever**

I'm swimming but it's always been upstream
Lights are flashing in a never ending dream
I need your love like a choir need their hymn
The soft pink glow of devotion
That comes only from within

**My heart needs loving arms around
You and me, night and day close together
Now I know we can't choose
How whose heart beats for whose
But I just can't hold out forever**

*I know you feel it, I know you too well
How could I ever resist you love*

*You've been defeated before I can tell
Somehow I know this is it*

**My heart needs loving arms around
You and me, night and day close together
Now I know we can't choose
How whose heart beats for whose
But I just can't hold out forever**
