

## **Natural High**

Örlygur Smári / Gerard James Borg

Keep moving - Keep dancing  
Keep doing your thing  
You're shaking my senses  
Stirring feelings within

I'm eating sweet candy  
From the palm of your hand  
I wonder - what makes me  
Feel I'm walking on air

**Look at me now  
I'm ready to fly  
Tonight you are my one and only  
natural high  
In orbit with you  
Two hearts will be one  
Because you are my one and only  
natural high**

I'm living - I'm breathing  
I'm tattooed on your skin

You make me commit to  
The sweetest of sins  
I'm holding on to you  
I'm not letting go  
Reloading more magic  
In my heart and in my soul

**Look at me now  
I'm ready to fly  
Tonight you are my one and only  
natural high  
In orbit with you  
Two hearts will be one  
Because you are my one and only**

**natural high**

*I'm living on your energy tonight  
I'm ready for the Love-flight of my life  
I'm letting my emotions come alive  
This must be the perfect rocket-ride*

**Look at me now  
I'm ready to fly  
Tonight you are my one and only  
natural high  
In orbit with you  
Two hearts will be one  
Because you are my one and only  
natural high**
