

When Everything Is Gone

Karl Olgeirsson

How could I ever walk away
If everything was gone?
Open my eyes every day
Without my only one
As tempted as I've ever been
I've never thought of giving in
Don't like the world we're living in
When everything is gone

I couldn't care for many things
If everything was gone
I really like the joy it brings
The feeling to go on
That's why I keep you near my heart
That is why we'll never part
No one survives a broken heart
When everything is gone

**Even when the sun goes down
The winter stays forever
Even if there 's dusk till dawn
We 'll always stay together
I believe in fairytales and wonders
You'll find me here when everything is gone**

How many souls have lost their ways
Somewhere along the line?
Will you see a familiar face
When you'll get left behind?
The greatest thing you'll ever learn
At the point of no return
You'll need a friend when bridges burn
When everything is gone

**Even when the sun goes down
The winter stays forever
Even if there 's dusk till dawn**

**We'll always stay together
I believe in fairytales and wonders
You'll find me here when everything is gone**
